

Construction Equipment

...for Construction, Utility, Landscape, & Rental

History of SS Diesel Equipment!

The company's CEO, Sam Stoltzfus's passion to serve in the diesel-engine, off-highway industry grew on his family farm in Lancaster County, PA. He worked around off-grid sawmill power, and maintained a number of diesel engines, rebuilding them in his Dad's farm shop. In 2010, he expanded his knowledge, working for the local tractor repair shop. In 2015, **SS DIESEL EQUIPMENT** was established, growing out of a strong local need. A service truck was acquired for on-site service needs, and for new diesel engine and generator installations.

In 2017, the company became a dealer for YANMAR Industrial Engines. YANMAR's legacy of performance, dependability, and efficiency is built upon an unprecedented level of experience. Since 1933, YANMAR has manufactured more than 15 million engines, and still counting. Today, each engine built is a reflection of expertise, engineered with craftsmanship and backed by a promise and proven reputation for long-lasting performance. This has added significant value to SS DIESEL EQUIPMENT's customers, while providing Yanmar diesel power packs and parts to other repair shops & OEMs across the states.

In addition to YANMAR, other OEM brands were added, including John Deere and Cummins, extending support of their parts and service in the off-road industry.

In 2022, our newest product line known as ZPOWER was added, and is engineered and assembled by SS DIESEL EQUIPMENT. ZPOWER products consists of various custom engine setups, including gensets and stationary & mobile PTO units. They are distributed through a dealer network across the states, and can be purchased direct locally.

In 2023, we added YANMAR Construction Equipment to our dealership. With a passion for YANMAR, this has been a very exciting "next step" for the team. YANMAR Compact Equipment can now be purchased (includes a demo) or rented at **SS DIESEL EQUIPMENT**, backed by our certified, factory-trained technicians.

Excavators (ViO-Series)

RELIABILITY

With an industry-leading 4-year, 4,000-hour warranty and a rugged-build quality with added protection for vital components, Yanmar excavators are built for the long haul.

The YANMAR excavator history began in 1971 with the launch of the world's first compact excavator. Since then, YANMAR continues to lead the industry through continuous improvement and innovation of new technologies.

YANMAR offers two series of excavators - the "ViO" and "SV", ranging from 9.8- to 10-ton class. The ViO-series are our True Zero Tail Swing models and the SV-series are our Ultra-Tight Tail Swing models. Yanmar's patented hydraulic quick coupler comes standard with the larger models, allowing the operator to switch between attachments from the cab.

ViO17-1E

- Weight: 4,023 lbs.
- HP: 14.5
- Max digging depth: 7'7"
- 4 year/4,000 hr. warranty

ViO25-6B

- Weight: 5,908 lbs.
- HP: 20.4
- Max digging depth: 10'
- 4 year/4,000 hr. warranty

ViO35-6A

- Weight: 8,214 lbs.
- HP: 24.4
- Max digging depth: 11'3"
- 4 year/4,000 hr. warranty

ViO50-6A

- Weight: 10,792 lbs.
- HP: 39
- Max digging depth: 12'3"
- 4 year/4,000 hr. warranty

ViO55-6A

- Weight: 12,247 lbs.
- HP: 47.6
- Max digging depth: 13'6"
- 4 year/4,000 hr. warranty

ViO80-7

- Weight: 18,136 lbs.
- HP: 56.9
- Max digging depth: 15'4"
- 4 year/4,000 hr. warranty

Excavators (SV-Series)

SV08-1D

- Weight: 2,348 lbs.
- HP: 10.3
- Max digging depth: 5'4"
- 4 year/4,000 hr. warranty

SV40-3

- Weight: 9,515 lbs.
- HP: 39
- Max digging depth: 11'10"
- 4 year/4,000 hr. warranty

SV100-2A

- Weight: 21,550 lbs.
- HP: 72
- Max digging depth: 15'9"
- 4 year/4,000 hr. warranty

YANMAR SV100-2A is King of the 10-ton class!

Meet the largest and most powerful ultra-tight tail mini excavator in the Yanmar line; 22,500 lbs. and bolstered with an impressive 72 HP Tier 4 Final Yanmar diesel engine package that is quiet, fuel efficient and clean burning for job-site compliance in the strictest environments. With an impressive digging depth perfectly equipped for jobs that often require much larger and harder-to-manuever excavators, you'll find the SV100-2A to be perfectly at home on jobs that require big capability, but a confined footprint. The ultra-tight turning radius is compact enough that the boom bracket stays entirely within the tracks. And while the outside is all business, you'll find a long list of standard equipment to help you get more done, including a standard second auxiliary hydraulic circuit with flow control, auto-shift, two-speed travel to quickly move between dig areas, and a sealed cab that fends off noise, dust, and the elements for year-round performance.

Compact Track Loaders

The all-new TL100VS is the heavy-duty leader in Yanmar's debut lineup of compact track loaders. With a relentless 103.5 HP engine, this machine does more than finish the job — it helps create new ones for your crew. Power through project after project for years to come with the latest innovation from a leader in compact equipment.

TL65RS

- Weight: 8,000 lbs.
- Horsepower: 67
- ROC: 2,100 lbs.
- 2 year/2,000 hr. warranty

TL75VS

- Weight: 8,500 lbs.
- Horsepower: 74
- ROC: 2,400 lbs.
- 2 year/2,000 hr. warranty

TL80VS

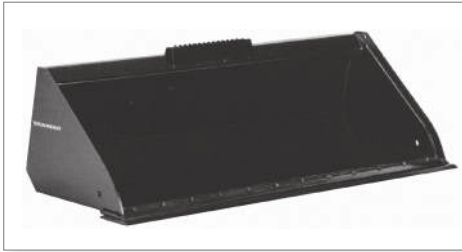

- Weight: 9,600 lbs.
- Horsepower: 74
- ROC: 2,900 lbs.
- 2 year/2,000 hr. warranty

TL100VS

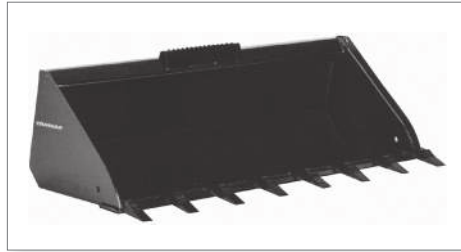

- Weight: 10,555 lbs.
- Horsepower: 103.5
- ROC: 3,780 lbs.
- 2 year/2,000 hr. warranty

Attachments

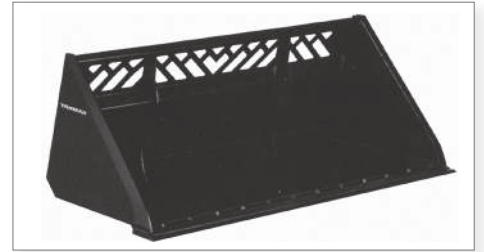

Standard Bucket

- Available for a variety of applications; attaches quickly & easily to your machine.

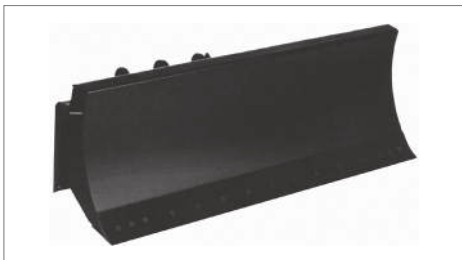

Tooth Bucket

- Features replaceable Series-23 cast teeth with cast shank welded directly to bucket edge.

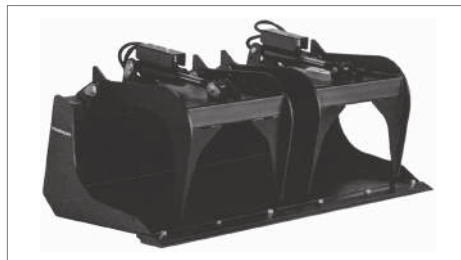

Light Material Bucket

- More capacity than standard bucket; ideal for snow, wood shavings, sawdust, pellets, mulch, feeds, fertilizers, bedding.

Grading Blade

- 6-way hydraulically controlled for dozing, scraping, cutting swales, leveling.

Grapple Bucket

- Moves difficult-to-handle material like scrap, waste, & rocks with ease.

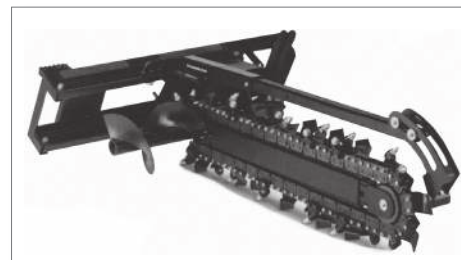

Receiver Plates/Ball Hitch

- Allows you to conveniently maneuver equipment, especially in tight spaces, without additional manpower.

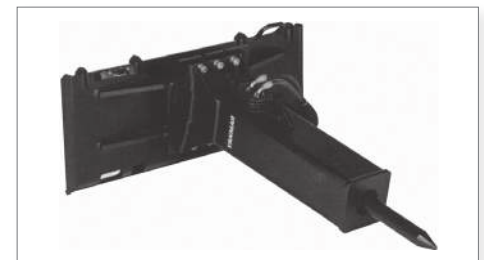

Soil Conditioner

- Uses a direct-drive motor & a tough set of tungsten-carbide teeth.

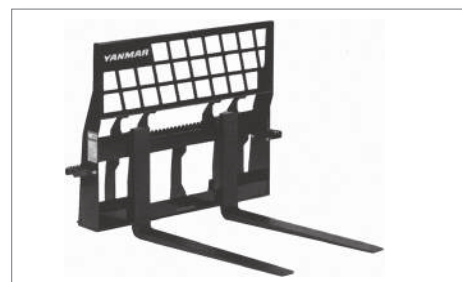

Trencher (Heavy-Duty)

- Suitable for all conditions; attached crumbler keeps your dig clean.

Breaker

- Features a power booster for high performance & low vibration.

Pallet Fork

- Pairs easily & makes moving, maintaining, & organizing simple.

Auger Drive

- Powerful attachments for your Yanmar loader; self-centering design.

Auger Bits

- 7 bits attach seamlessly to your auger drive for added versatility.

Compact Wheel Loaders

To be productive, you need a lot of power. With YANMAR, you have the power to ascend slopes smoothly. The engine delivers high output, while meeting stringent environmental regulations. The innovative engine design provides the additional power when you need it, paving the way toward your business success.

V4-7

- Weight: 8,422 lbs.
- HP: 39
- Bucket capacity: 0.65 yd³
- 3 year/3,000 hr. warranty

V7

- Weight: 9,370 lbs.
- HP: 47.6
- Bucket capacity: 0.92 yd³
- 3 year/3,000 hr. warranty

V10

- Weight: 12,786 lbs.
- HP: 72
- Bucket capacity: 1.31-2.03 yd³
- 3 year/3,000 hr. warranty

V12

- Weight: 15,432 lbs.
- HP: 100
- Bucket capacity: 1.57-2.35 yd³
- 3 year/3,000 hr. warranty

Tracked Carriers

“Where tires don’t tread!”

The impressive compactability and power of the YANMAR tracked dumper means it is ideal for confined spaces, such as gardens or working with skips - even for indoor jobs. It is equipped with a tiny turning circle, making maneuverability a breeze. Its oscillating rollers allow it to take on rough terrain with a stable load. *Available in 180° swivel dump.*

C30R-3

- Weight: 5,843 lbs.
- Horsepower: 46
- Max Payload: 5,512 lbs.
- 3 year/3,000 hr. warranty

C50R-5

- Weight: 12,633 lbs.
- Horsepower: 111.5
- Max Payload: 8,379 lbs.
- 3 year/3,000 hr. warranty
