

PTO Carts

Economy Model

Proven performers in demanding conditions.

2- and 4-Wheel PTO Carts

Farmers using powered machinery spend many hours in the field. Dependability and performance are requirements, not options.

ZPOWER PTO Carts have proven to perform in demanding conditions, and will give you peace of mind year after year.

Implement	Recommended HP (minimum)
7' Haybine	23HP
9' Haybine	35HP
Tedder	23HP
Rake	23HP
Small Square Baler	23HP
Corn Picker (1 row)	23HP
4' x 4' Round Baler	45HP
9' Discbine	75HP
Chopper (1 row)	75HP
Chopper (2 row)	125HP
TMR Mixer	125HP
83" Tiller	75HP
93" Tiller	125HP
103" Tiller	125HP

23HP PTO Carts

An economical alternative for light-duty applications.

Why a 23HP **ZPOWER** PTO Cart?

- Lightweight, durable design
- Raised tongue allows more clearance for horses' legs
- Rubber-torsion axle for smoother ride
- Hydraulic brakes with lock valve
- Single hydraulic valve with 2 quick disconnects
- Comfortable platform

Specifications

- Overall Width: 73"
- Overall Height: 60"
- Overall Length: 53"
- Weight: 700#
- Primary Color: Red
- Horses Recommended: 2 Draft size

Options

- LED flood light kit
- Steel wheels

Balanced

Only 40 lbs. of tongue weight with 200 lb. man in seat.

Engineered for 600 lbs. max draw-bar weight.

The 23HP **ZPOWER** PTO Cart is the perfect solution when additional weight and horsepower are unnecessary. Excellent for a small farm or home-stead. The powerful 23HP Vanguard engine will power mowers, tedders, rakes, small square balers, manure spreaders, and small corn pickers. The compact, well-balanced design makes this PTO Cart easy to maneuver and operate. Includes implement seat & bracket, steel draft tongue, hydraulic brakes, dual hydraulics, and rubber-torsion axles.

35HP Gas & 45HP Diesel PTO Carts

Why a 35HP & 45HP **ZPOWER** PTO Cart?

- Engineered for maximum performance when working in the field
- Designed for operator comfort and safety
- Hydraulic steering for better control
- Hydraulic stabilizer for better control, eliminating jack-knifing
- Rubber-torsion axle for smoother ride
- Raised tongue with lift spring eliminates tongue weight
- Hydraulic brakes with lock valve

Specifications

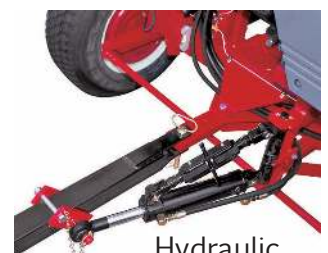

- Overall Width: 73"
- Overall Height: 76"
- Overall Length: 77"
- Weight: 1400#
- Primary Color: Red
- Horses Recommended: 3 Draft size

Options

- LED flood light kit
- Steel wheels
- Foot-pedal steering
- Storage cover

The 35HP & 45 HP **ZPOWER** PTO Carts let you enjoy your time in the field with a machine you can depend on. The quiet 35HP Vanguard gas engine and the 45HP Yanmar diesel engine will handle the majority of implements used on a horse-powered farm. The adjustable draw-bar stabilizer eliminates balance problems on a two-wheeled cart. This unique design ends swaying, tongue-weight problems, and PTO shaft-binding issues. This feature also provides better stability when making turns and working on hillsides. Includes raised-adjustable steel draft tongue & lift-spring kit, hydraulic brakes, rubber-torsion axles, 4 hydraulic quick-disconnect outlets, cushioned tractor seat & bracket, offset bracket for multiple horses, toolbox, and 4" & 6" bolt-on stabilizer pins.

75HP & 125HP PTO Carts

Enjoy your time in the field with a machine you can depend on.

Why a 75HP & 125HP **ZPOWER** PTO Cart?

- Engineered for maximum performance when working in the field
- Designed for operator comfort and safety
- Hydraulic steering for better control
- Hydraulic stabilizer for better control, eliminating jack-knifing
- Rubber-torsion axle for smoother ride
- Raised tongue with lift spring eliminates tongue weight
- Hydraulic brakes with lock valve

75HP & 125HP **ZPOWER** PTO Carts can power most implements used on a horse-powered farm...up to small- and medium-size round balers. The adjustable draw-bar stabilizer eliminates balance problems on a two-wheeled cart. This unique design ends swaying, tongue weight issues and PTO shaft binding. This feature also provides better stability when making turns and working on hillsides. Includes raised adjustable-steel draft tongue and lift spring kit, hydraulic brakes, rubber-torsion axles, 4 hydraulic quick-disconnect outlets, cushioned tractor seat & bracket, offset bracket for multiple horses, foot-pedal steering, storage cover, toolbox, and 4" & 6" bolt-on stabilizer pins.

Why **YANMAR** engines?

YANMAR engines are reliable and energy-efficient, getting the job done every time. They are true high-performance technology, boasting the maximum in engine life. They are tested under extreme conditions.

The 75HP & 125HP **ZPOWER** PTO Carts are the perfect machine to power a tiller or chopper. Enjoy your time in the field with a machine you can depend on. The powerful smooth running 75HP Yanmar & 125HP select diesel has become a favorite among many farmers. These machines are well suited to power through the toughest conditions. The adjustable draw-bar stabilizer eliminates balance problems on a two-wheeled cart. Includes raised adjustable-steel draft tongue & lift spring kit, hydraulic brakes, rubber torsion axles, four hydraulic quick-disconnect outlets, cushioned tractor seat & bracket, offset bracket for multiple horses, foot pedal steering, toolbox, and 4" & 6" bolt-on stabilizer pins.

75HP & 125HP PTO Cart Specifications

- Overall Width: 77"
- Overall Height: 74"
- Overall Length: 86"
- Weight: 18#
- Primary Color (s): Red
- Horses Recommended: 4-6 Draft size

Options

- LED flood light kit
- Steel wheels
- Foot-pedal steering
- Storage cover

4-Wheel PTO Carts

Why a 4-Wheel **ZPOWER** PTO Cart?

Four-wheeled PTO Carts are well-suited for larger tillers, silage choppers, or large round balers. Progressive horse farmers with large acreage will appreciate the capabilities of this machine.

Options

- LED flood light kit
- Steel wheels
- Foot-pedal steering
- Storage cover

Family of **ZPOWER** Products

Complete Power Unit Solutions

Generators & power units for Industrial and Agricultural applications for sawmill machinery, air compressors, water pumps, manure pumps, forage blowers, and many other agricultural and industrial machines.

ZPOWER Generators

KW ranges: from 8.2 up to 1200

- 1-phase and 3-phase generators
- Prime and standby use

Mobile PTO Unit

ZPOWER Mobile PTO Units

HP ranges: 6.7HP through 1500HP

in mobile PTO and stationary applications

Gear-Reduction Clutches

Single
1000 RPM
Output

Capacity:
0-250 HP

Dual
540/1000 RPM
Output

Capacity:
0-160 HP

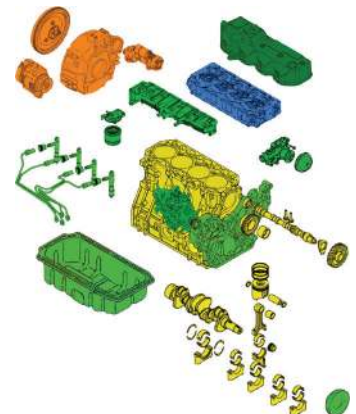

Single
540 RPM
Output

Capacity:
0-80 HP
